Table S1. Groups of Rufous Hornero (*Furnarius rufus*) and the Chalk-browed Mockingbird (*Mimus saturninus*) studied the number of individually marked birds at each group. *As the *F. rufus* couple in group 1 initiated the breeding season earlier than expected, their scans were discarded.

<i>Mimus saturninus</i>			<i>Furnarius rufus</i>			
N° group	Group size	Marked individuals	N° scans	Group size	Marked individuals	N° scans
Group 1	7	4	48	2	-	-*
Group 2	7	4	50	3	-	6
Group 3	3	1	70	3	2	72
Group 4	7	2	60	2	2	31
Group 5	6	3	30	2	1	51
